

SUSTAINABLE GROUND PROTECTION MATS

ENVIRONMENTAL
SOLUTIONS

NEW & EXCLUSIVE
TO BEAVER 84*

TuffTrak

- TuffTrak is a large heavy duty road mat that provides a temporary road and access for plant and vehicles up to 140 tonnes
- Effective, fast and simple connection
- Highly efficient on soft undulating ground
- No ground preparation needed
- 40mm thick: no need for vehicle ramps
- 100% recyclable: reduces landfill waste and cost
- Lower theft risk: made from 100% recycled high density polyethylene (HDPE)
- Lower transport costs: TuffTrak is lighter than conventional large road mats lowering transport costs
- Avoids severe rutting eco damage to environmentally sensitive areas

Thickness: 40mm

Width: 2500mm

Length: 3000mm

Weight: 290kg per mat

Weight tested: Up to 140 tonnes

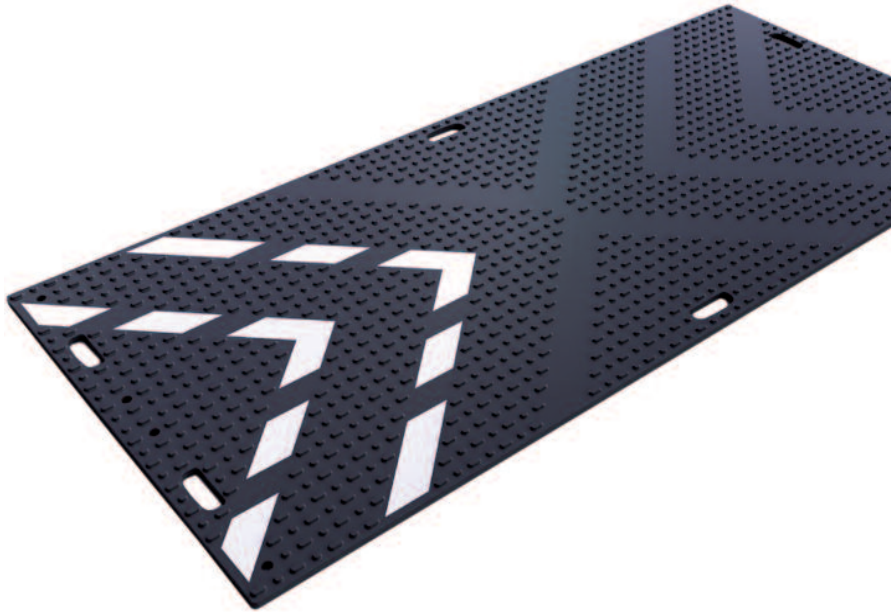

Material: 100% recycled HDPE

Traction: High definition compression moulded traction surface

Connectivity: Various steel corner connectors and flex connectors available

Load performance depends on ground conditions as well as the weight and types of vehicles and plant. Beaver 84 and Zigma Ground Solutions, their agents or employees are not held liable for any damage to existing ground or property through the use of TuffTrak or SIG Trak.

*In the construction and utilities sectors.

SIG Trak

- Easy to install ground protection for pedestrian and vehicles
- Fast temporary access, working areas and trackways
- Unique chevron design grip surface
- Unique non-slip reflective markings for night safety (optional)
- Unique 'Cats' Eyes' reflectors for night safety (optional)
- Save time and money in reinstating ground
- 100% recyclable: reduces landfill waste and cost

Thickness: 14mm

Width: 1200mm

Length: 2400mm

Weight: 35kg

Weight tested: Up to 60 tonnes

Material: 100% recycled HDPE

Traction: High definition chevron traction system

Connectivity: Various steel and HDPE connections available
